

AMENDMENT LANGUAGE

Section 2 Article 1 Section 7(c) is added to the California Constitution to read:

"The term '**person**' applies to all living human organisms from the beginning of their biological development, regardless of the means by which they were procreated, method of reproduction, age, race, sex, gender, physical well-being, function, or condition of physical or mental dependency and/or disability".

WHY DO WE NEED THIS AMENDMENT?

- The right to life is the paramount and most fundamental right of a **person**.
- Modern medical science is extremely clear and overwhelmingly supports "**personhood**", the fact that the life of every human being begins at the beginning of his/her biological development as a human organism.
- **Personhood** removes the politically charged rhetoric of the "life" debate and replaces it with the commonsense scientific principle that life begins at each human being's development as a human organism.
- **Personhood** is unlike all other legislation in that it guarantees the right to life of ALL people from the moment of procreation until death.

ALL human beings deserve to be protected by love and by law. **Personhood** is Human Rights. Without **LIFE** we have nothing!
