Frederick Douglass Foundation Supports Personhood USA

WASHINGTON, DC - Timothy F. Johnson, Chairman and Founder of the Frederick Douglass Foundation, today announced his organization's full support of Personhood USA, a movement working to respect the God-given right to life by recognizing all human beings as persons who are "created in the image of God" from the beginning of their biological development, without exceptions.

"I am pleased to announce that the Frederick Douglass Foundation has decided to support Personhood USA to put an end to abortion and black genocide," Timothy Johnson said. "Whenever possible and appropriate, we will work with Personhood USA on Christian and anti-abortion matters to support life for all beings, no matter their age or size."

Personhood USA serves the pro-life community by assisting local groups to initiate citizen, legislative, and political action focusing on the ultimate goal of the pro-life movement: personhood rights for all innocent humans.

"The Frederick Douglass Foundation and Personhood USA have a common goal - to protect the lives of the innocent unborn and reaffirm the right to life in our Constitution, in order to put an end to black genocide."
